## SUMMARY

Motivated MCA student at NIT Kurukshetra with a Data Structures, and Software Development, Machine Learning. Skilled in Python, Java, SQL, and modern web technologies, with hands-on experience in developing AI-driven and full-stack applications. Passionate about solving real-world problems using data-driven approaches and continuously learning emerging AI technologies.

## EDUCATION

| Degree           | Institute                                          | Board / University | CGPA/Percentage     | Year      |
|------------------|----------------------------------------------------|--------------------|---------------------|-----------|
| MCA              | National Institute of Technology , Kurukshetra     | NIT Kurukshetra    | 8.25 (Till 3rd Sem) | 2024-2027 |
| BCA              | Dr. Virendra Swaroop Institute of Computer Science | CSJMU              | 8.21                | 2020-202  |
| Senior Secondary | Mary Jesus Education Center                        | ICSE               | 78%                 | 2020      |
| Matriculation    | Mary Jesus School                                  | ICSE               | 78%                 | 2018      |

## EXPERIENCE

### • Accenture

June 2026 – July 2026

Advanced Engineering Analyst Intern

Gurugram

- Gained hands-on experience with modern technologies through enterprise-level training and practical assignments.
- Applied technical skills to real-world business challenges while developing an understanding of technology-led digital transformation.
- Worked with technologies including React, Python, FastAPI, SQLite, and Generative AI during the internship.
- Strengthened problem-solving, collaboration, and software development skills by working in an agile corporate environment.

## PROJECTS

### • AI-Interview Platform

Jan 2026 – Jul 2026

MCA Innovative Project Development, NIT Kurukshetra

- Built an AI-powered interview platform using React.js, Node.js, PostgreSQL, WebRTC, and Socket.io for real-time virtual interviews.
- Integrated Deepgram STT and Groq Llama-3.1-8B LLM to analyze interview transcripts, resumes, and job descriptions for automated evaluation and PDF report generation.

### • RaktMitra – Blood Donation Platform

2026 (In Progress)

Full Stack Development

- Developing a blood donation platform using Java, Spring Boot, React, MySQL, and JWT.
- Implemented secure authentication and donor search based on blood group and location.

## TECHNICAL SKILLS

- Programming Languages::** Python, Java, SQL, JavaScript
- Machine Learning & AI::** Scikit-learn, Pandas, NumPy, Matplotlib, TensorFlow (Basics), Generative AI, Prompt Engineering
- Web & Backend::** FastAPI, React.js, Spring Boot, REST APIs
- Databases::** PostgreSQL, MySQL, SQLite, Firebase (Basics)
- Developer Tools::** Git, GitHub, VS Code, IntelliJ IDEA, Jupyter Notebook

## KEY COURSES TAKEN

- **Core Subjects:** DSA, OOP, DBMS, Operating System, Computer Networks,
- **Other:** Machine Learning, Finite Automata, Artificial Intelligence, IWT

## CERTIFICATIONS

- **Agentic AI Fluency** Accenture
- **Generative AI Fluency** Accenture

## POSITIONS OF RESPONSIBILITY

- **Committee Head,** Mexperts, NIT Kurukshetra – Led technical activities and coordinated student events. 2025 – 2026
